Gladiolus

Price List

Owing to the general economic conditions throughout the country we have decided, this year, to do without an expensive colored gladiolus catalog. We hope our customers will realize the wisdom of this decision and accept this modest price list as our effort to serve them best during these unsettled times.

No doubt many of our customers have saved their catalogs of previous years and these will serve as a guide to a more complete description of the many fine gladioli we have produced. Last season's catalog was very interesting in that it pictorially illustrated in color about 90 of our gladioli.

Looking back over the past year we realize that many an eventful happening occurred. There was that stupendous "Century of Progress" at Chicago which stands out as the crowning achievement of the year. Kunderd Gladioli played an important role at the "World's Fair". For nine consecutive weeks we maintained the greatest gladiolus show ever staged for such a long time. Our exhibit was changed completely twice a week and the main exhibition room of the Horticultural Building was filled with Kunderd Gladioli of all colors, types and varieties. Never in the history of this country was there such a show. Fortunately, many of our customers from all over this country and some from foreign lands visited our exhibit and marvelled at the beauty of our gorgeous gladioli.

We take pleasure in presenting to you this year 10 new introductions offered here for the first time. All these varieties are moderately priced considering their individual merits. Every one of these new kinds have been thoroughly tested and have measured up to a high standard. We know you will enjoy them immensely.

# New Gladiolus Novelties for 1934

This is the age of changes—discarding the old and adding something new and better. The same thing is true with Gladioli, we must make changes in order to keep astride with the times. This year we are offering for the first time ten marvelous new Gladioli. These were chosen with the utmost care and every one is a variety you can well be proud to own. There are five new plain petaled kinds, one ruffled, one primulinus and three laciniated.

These ten new Gladioli are the product of that master hybridist, A. E. Kunderd. They are offered to you with his approval and we know they will prove a most pleasant addition to your Gladiolus family.

**“BOY O’MINE”** (Pl.)—6 to 8 large, closely set, perfectly placed, flowers open at a time. A delightfully blushed cream yellow pink, deepening towards the ends of all petals. Throat of lower petals a most beautiful soft yellow tone blending perfectly with the entire flower into one of the most lovely Gladiolus ever produced. Exquisite in every way. \$10.00 ea.

**“AFTERGLOW”** (Pr.)—Florets openly placed on spike—4 to 6 good sized ones open at a time. Deep orange on upper petals, lower petals tipped same color. Three lower petals almost entirely covered deep, pure unmarred yellow. Distinct and very striking. \$1.00 ea. 3 for \$2.00 Doz. \$6.65
